COUNCIL MEETING.

The City Dads Meet and Take Measures to Protect the City's Health.

[The following report of the city council should have appeared in yesterday's GAZETTE, but was accidentally omitted.]

The city council pursuant to a call of the mayor met Wednesday afternoon at 2 o'clock.

Present: His honor Mayor Smith, Aldermen Andrews, Alexander, Adams, Feld, Askew, Aldridge, Hughes and Flanagan.

After the council had been called to order some discussions took place as to what measures should be adopted to preserve the health of the city. Alderman Askew favored the appointment of a city physician to the position of health officer, who would be ex-officio chairman of the board of health with the appointment of a corps of sanitary police to enforce the same.

Alderman Flanagan did not think that if such police were appointed they could be taken from the control of the chief of police, who is an elective officer, and put under the control of an officer appointed by the council.

Alderman Andrews thought as we had a board of health, with its chairman appointed by the statutes, he did not see how the council could create an elective officer over his head.

Other aldermen aired their views as to the proper course to pursue to preserve the sanitary condition of the city, and each and every one had a different way of doing any and everything.

Upon motion it was ordered that the city attorney draft an ordinance to be presented at the regular meeting of the council, to enforce proper sanitary measures.

A committee consisting of Aldermen Adams, Andrews and Alexander, with city physician, to confer with the city attorney and arrive at some conclusion as to the proper manner and measures to be adopted and have drafted in the ordinance.

The city attorney was also directed to draft an amendment to the ordinance defining the duties of chief of the fire department.

The council then adjourned.

HOUSTON.

Special to the Gazette.

HOUSTON, July 31.—The commutation by the governor of the death sentence of Henry Campbell, convicted of the murder of Police Officer Snow, received by Sheriff Fant last night, creates little or no comment here, as this course on the part of the executive was predicted by every one acquainted with the facts.

Campbell seems little concerned, and regards the life penalty but little better than death.

The case of the Houston & Texas Central Railway company vs. the Houston Street Railway company to enjoin the latter company from constructing their track across the track of the plaintiff was before Judge Masterson today on a motion to dissolve the temporary injunction.

After hearing the evidence the motion was granted and the injunction dissolved.

WICHITA FALLS.

Special to the Gazette.

WICHITA FALLS, July 31.—The quarantine against Texas cattle in the North is not much relaxed by the people of our section. Seventy carloads of cattle belonging to the Franklin Land and Cattle company are here and were to have been shipped today.

It is claimed by stockmen and others that it is the coast cattle alone and not North Texas cattle that cause disease among Northern cattle and an effort will be made to get the matter placed in a proper light before congress next session.

Enough rain fell yesterday to lay the dust.

A prairie fire was raging south of here last night.

There has been no abatement in improvements on account of the warlike weather. About twenty new buildings have been started within the last week.

A Chinaman has opened a new laundry here. It is believed a steam laundry would pay.

W. H. Nicholson has sold out his stock of provisions to Mr. W. A. McCutchen.

Home Enterprise.

A visit to the harness department of R. F. Tackabery's would readily convince a lover of fine harness that the same can be made at home as well as elsewhere.

The harness of Mr. I. Steffe, now being put up of genuine Mottel stock, cannot be surpassed.

WASHINGTON LETTER.

Teller and Hill—The Colorado Senatorship—Jim Belford's People.

How Teller is Helping Himself—Hill Has the Inside Track.

Teller's Patronage—Appointments—An Old Texas Veteran Bumping 'Round the Capital.

Special Correspondence of the Gazette.

WASHINGTON, July 27.—Teller, the secretary of the interior, who has quit transferring the people's land to bogus backbones and other Blaine and Barnum railways, is now a candidate for the United States senator's place becoming vacant by the expiration of the term of Senator Hill.

Teller's aspirations in this direction have been eminently serviceable to the people of the United States. The people of Colorado were watching their representative in the cabinet, and when Teller was conveying the public land right and left and to every railway autocrat that demanded it, the people of Colorado and the potent newspaper press of that vigorous commonwealth quietly but firmly said to Mr. Teller that if he did not put a period to land stealing by corporations he could never be elevated to Hill's place in the senate.

Teller is not blind or deaf or dumb. He shut down at once on Kellogg and Barnum. Van Wyck and James A. George and the anti-monopolists were so delighted that Teller, a government creature, had the courage to resist a corporation and stand by the people, that it was agreed that Teller should have a fair showing for the United States senatorship.

Red-headed Jim Belford, who is the impersonation of the morals, tastes, civilization and intelligence of Colorado, was delighted that Teller had backbone enough to defy the assaults not only of Kellogg and Barnum but of Gould and Huntington and Belford even, pitied and pardoned Teller when Teller could not withstand the blandishments of the delicious Senator Plumb—no ripe, juicy, so rosy and glistening in the sunbeams of matchless Oklahoma; there are none to resist the fascinations of Plumb. Therefore Teller suffers Plumb to monopolize Oklahoma and squatters and common people must not delude their winds with their breath or press the soil with their feet.

The courts have their instructions and no poor man can have a hearing while the mighty Plumb would fatten his countless herds upon the property of the people. This blind government was instituted for the Plumbs. It was once a people's government, but now it is the property of lords of looms and of monstrous land monopolies like Plumb, who pays neither for title nor for use. But the people of Colorado could forgive Teller for this concession to Plumb, because Teller dared to block the game of Barnum and Kellogg and stop the progress of the steal.

Required to much backbone that the world still calls it the Louisiana Back-bone railway. But Teller is not content. Hill, the Colorado senator
